The **Healthy Active Rural Communities (HARC) Project – “A New Beginning for Rural Communities”** will deliver a suite of intervention programmes designed to improve the health and wellbeing of over **15,000 rural citizens** across Donegal, Derry-Londonderry and Tyrone.

The project will galvanise rural communities by:

1. Increasing the provision of key family support and wellness services across remote and peripheral rural areas; and
2. Developing and building the capacity of rural social enterprises to further develop and sustain the HARC interventions in the longer term.

Main Objectives

The HARC Project will strengthen the rural communities of **Inishowen, Faughan, Sperrin and Derg** by:

1. Improving the health & wellbeing of rural citizens;
2. Utilising and preserving natural rural assets for family health and wellbeing services;
3. Sustaining services developed by building the long-term capacity of local social enterprises.

- **Solution 1:** Creation of a Rural Family Support Programme (prenatal, early years, parenting, youth transitions, carers, older people, disability & health support).
- **Solution 2:** Delivery of nature-based health & wellbeing programmes (community gardening, walking, sea swimming, outdoor therapy, eco initiatives).
- **Solution 3:** Development of rural social enterprises (mentoring, training, shared services, social impact support).

This will enable:

- **15 rural social enterprises** to receive capacity building & development support.

Threshold Score

If a tenderer scores 0, 1 or 2 in the following qualitative criteria, Q1, then it shall be deemed that they have failed to meet the specification and their tender will be eliminated from the competition at the point of failure.

Cost Evaluation

For those tenders that pass the qualitative assessment, the following formula will be used to evaluate Cost:

1. Lowest cost tendered will be awarded the maximum score available (20%) and
2. To calculate the score for the costs submitted by the remaining tenderers, the following formula will be applied – the lowest tendered cost divided by the tenderer's price, multiplied by the cost weighting (20%)

Tenderers should note that RAPID is not obliged to accept the lowest cost of any tender.

Final Score – combination of Quality and Cost

The tenderer with the highest overall final score (Quality and Cost) will become the preferred supplier.

In the event of a tied score between the first and second place bids, the contract will be awarded to the tenderer with the highest quality score.

Abnormally Low Tenders

Where the overall tendered amount appears to be abnormally low, the tenderer will be required to provide further written details of the constituent elements of the overall tendered amount or the tendered rates or any other information considered to be relevant.

Any failure to provide such information, where requested, may exclude the tender from further consideration.
